To Whom It May Concern,

October 26, 2021

As a technician with a love for automation and security, I seek every opportunity I can to make systems more efficient and secure. My commitment to curiosity, positive outlook, and the empathy I exhibit to form meaningful connections with teammates and users are the hallmarks of my personality that have characterized my career with a richness in depth and efficacy.

Combined with creativity, initiative, dedication to learning, and attention to detail, my previous experience in desktop and systems support make me an exceptional candidate for this open distributed computer systems analyst position. Please see some of the highlights of my education and experience in my attached resume; I look forward to hearing more about this opportunity to help FDACS grow.

Travis Brown
